

MANPOWER AVAILABILITY STATUS (MAS) CODES

This document provides additional guidance to supplement MAS code instructions found in RESPERS M-1001.5. Echelon IV and V manpower and mobilization officers should familiarize themselves with and ensure adherence to this guidance, particularly MAS code currency (provided in parentheses) regarding how long certain MAS codes should be used. Any questions concerning MAS codes should be directed to COMNAVRESFOR N35.

NSIPS allows the tracking of three categories of MAS codes: Medical, Administrative, and Training. When assigning MAS codes, Echelon IV and V commands are directed to follow the order of precedence provided below.

Note: F = Field, for use by echelon IV/V commands. HQ = Headquarters, for use by COMNAVRESFOR only. If an "HQ" MAS code has been entered in a Reserve Sailor's record, do not remove/change the code without COMNAVRESFOR N35 permission.

1. Medical/Dental MAS Codes: Medical/Dental MAS codes are used to report and track potential medical/dental issues that may preclude a Reserve Sailor from executing active duty orders.

Note: RC Sailors assigned medical/dental MAS codes are expected to aggressively correct the issue resulting in assignment of the MAS code. If unable to correct the issue, NRAs are to submit required MRR packages IAW current guidance.

Medical/Dental MAS code definitions follow:

<u>MAS Code</u>	<u>Meaning</u>
MPQ	Temporarily not physically qualified for mobilization; MRR or PEB is NOT required or has NOT yet been submitted. (180 days)
MS1	Temporarily not physically qualified for mobilization. MRR or PEB package has been submitted. Final adjudication of MRR or PEB package has not been received. MS1 shall be assigned when the MRR or PEB package is submitted to allow tracking of package through adjudication. (365 days)

Note: MS1 shall also be assigned when annual PRC B MRR package is submitted. After annual PRC B

RESPERS M-1001.5
Updated 19 Feb 2015

MRR package is adjudicated, assign medical MAS code as appropriate.

MPC Pregnant. (365 days)

MPP Non-deployable mother, child less than 12 months old or postpartum convalescence. (365 days- automatic removal)

MNN Not physically qualified for deployment OCONUS, unless the member obtains an approved waiver. (365 days)

MDT Dental Class III which does not preclude mobilization. Members may perform IDT at their assigned site, but may not perform IDTT or any type of active duty to include AT, ADT, ADSW, or IDTT. Members in a TNDQ status may perform IDTT if it is to complete an annual Type 2 dental examination.

MDF Dental Class IV which does not preclude mobilization. Members may perform IDT at their assigned site, but may not perform IDTT or any type of active duty to include AT, ADT, ADSW, or IDTT. Members in a TNDQ status may perform IDTT if it is to complete an annual Type 2 dental examination.

Category	MAS Code	Definition	Field/HQ Action	Precedent
M	MPQ	Temp. not physically qualified for Mobilization	F	1
M	MS1	Temp not physically qualified, MRR/PEB submitted	F	2
M	MPC	Pregnant	F	3
M	MPP	Non deployable mother child < 12 months old	F	4
M	MNN	Not physically qualified for deployment OCONUS	F	5
M	MDT	Dental Class III	F	6
M	MDF	Dental Class IV	F	7

2. Administrative MAS Codes: Administrative MAS codes are used to report and track administrative issues that may preclude a Reserve Sailor from executing active duty orders.

Administrative MAS code definitions follow:

Supplemental MAS Code Guidance for
RESPERS M-1001.5
Updated 19 Feb 2015

<u>MAS Code</u>	<u>Meaning</u>
AUP	Unsatisfactory participant. When administratively separating personnel, Enlisted members shall be transferred to the APU, and Officers shall be transferred to the ASP. (180 days)
AAP	Administrative action pending which would preclude mobilization (e.g., unadjudicated ADMIN SEP other than for UNSAT participation, NRA received IRR request, etc.). (180 days)
APB	Enlisted probationary drill status (UNSAT). NRA has six months to declare member in good drill standing or ADSEP for UNSAT participation. (180 days)
TS1	Active Duty/Full Time Support member who affiliated within 0 to 183 days of release from active duty and is authorized a 24 month deferment from involuntary mobilization commencing on the date of affiliation. Sailors may volunteer for mobilization at any time during this deferment by signing a NAVPERS 1070/613 waiving their deferment period. Deferment does not apply to long term operational support orders (e.g., ADSW, ADT, RECALL, etc.) or NAT/NCS Sailors. (730 days- automatic removal)
AS1	Active Duty/Full Time Support member who affiliated within 184 to 365 days of release from active duty and is authorized a 12 month deferment from involuntary mobilization commencing on the date of affiliation. Additionally, this code will be used by CNRFC N35 to identify any Sailors who were cancelled from their mobilization within 60 days of the Ready Load Date. Sailors may volunteer for mobilization at any time during this deferment by signing a NAVPERS 1070/613 waiving their deferment period. Deferment does not apply to long term operational support orders(e.g., ADSW, ADT, RECALL, etc.) or NAT/NCS Sailors. (365 days- automatic removal)
ARR	Retirement request submitted to NRA and pending approval from PERS-9, or retirement request approved by PERS-9. (365 days)

ACB Not selected for continuation. (365 days)

Supplemental MAS Code Guidance for
RESPERS M-1001.5
Updated 19 Feb 2015

AS2	Member is within six months of HYT or statutory attrition. (180 days)
ACR	Member has a pending or approved conditional release from the Navy Reserves. Remove when conditional release expires. (180 days)
MPT	Member has two PFA failures in the last three years with one of the failures being the most recent PFA (BCA failure is considered a PFA failure). This code is used to track PFA failures that may prevent mobilization, not to track members being processed for separation due to PFA failures. (365 days)
AFP	Joint Personnel Adjudication System (JPAS) indicates the member has a security clearance issue that may preclude mobilization. These issues may include expired, suspended, revoked or denied clearances or no investigation. (365 days)
ASP	Member is a single parent or guardian, and requires a family care plan.
ASD	Member has an Active/Reserve military spouse and requires a family care plan.
AS3	Member is a non-custodial single parent who does not require a family care plan.
ASF	Member is ineligible for force protection duties.
AKE	Key state/local employee (COMNAVRESFOR use only).
ASO	Sole surviving son or daughter.

Category	MAS Code	Definition	Field/HQ Action	Precedent
A	AUP	Unsatisfactory driller	F	1
A	AAP	Admin action pending which may preclude mob	F	2
A	APB	Enlisted probationary drill status (UNSAT)	F	3
A	TS1	Affil. within 6 mos from RELACDU – 24 mos defer	F	4
A	AS1	Affil. within 7-12 mos from RELACDU – 12 mos defer	F	5
A	ARR	Retirement request submitted or pending approval	F	6
A	ACB	Not selected for continuation	F	7
A	AS2	Within 6 months of HYT	F	8

Updated 19 Feb 2015

A	ACR	Conditional release from the Navy Reserves	F	9
A	MPT	Two PFA failures in the past three years	F	10
A	AFP	Security Clearance Issue	F	11
A	ASP	Member single parent/guardian needing FCP	F	12
A	ASD	Member has active/reserve spouse needing FCP	F	13
A	AS3	Member is single parent (non-custodial); no FCP	F	14
A	ASF	Member ineligible for force protection duties	F	15
A	AKE	Key state/local employee	HQ	16
A	ASO	Sole surviving son/daughter	F	17

3. Training MAS Codes: Training MAS codes are used to report and track Reserve Sailor who are in special training programs or who have not completed all training required by law, DOD directive or other directives/instructions.

Training MAS code definitions follow:

<u>MAS Code</u>	<u>Meaning</u>
SAD	Approaching sanctuary. Member has 16 years or more of Active Duty (COMNAVRESFOR use only - do not remove without contacting COMNAVRESFOR N35).
TBH	Member has not completed prescribed basic training (e.g., DCO, BQC-NR, A and C schools). (1825 days)
TRL	Attending validated religious leader training. (730 days)
TMS	Attending authorized medical/dental/nursing school. Requires letter designating member has been accepted into the program and BUMED RAO approval. (1460 days)
TRP	PRISE-R/designator or rate conversion training. (545 days)
OWS	Member is on ADSW. NRA will assign code upon member departing on orders and will remove the code when member returns to the NRA.
THS	Mobilization Capacity Hold (COMNAVRESFOR use only).
VOL	Member is a volunteer and fully available/ready for mobilization. Should be verified annually.

Supplemental MAS Code Guidance for
RESPERS M-1001.5
Updated 19 Feb 2015

Category	MAS Code	Definition	Field/HQ Action	Precedent
T	SAD	Sanctuary risk – has 16 years or more of active duty	HQ	1
T	TBH	NPS Basic/DCO, IADT, school not completed	F	2
T	TRL	Attending validated religious leader training	F	3
T	TMS	Attending authorized medical school	F	4
T	TRP	PRISE-R/designator/rate conversion training	F	5
T	OWS	Member on ADSW	F	6
T	THS	Mobilization Capacity Hold	HQ	7
T	VOL	Volunteer for mobilization/recall	F	8

4. Spare or no longer used MAS codes: The following list of MAS codes are either spares or no longer in use. The Spares are for COMNAVRESFOR use only (HQ).

<u>MAS Code</u>	<u>Spare/Previous Meaning</u>
MP1	Medical spare
MS2	Medical spare
MS3	Medical spare
OAT	Member on AT/ADT
OTN	On ADT less than 180 days not in support of OPS
OTS	On ADT less than 180 days in support of a crisis
TBX	Less than 84 days of active duty (CONUS mob only)
TCB	CB-Vet program
TDX	Completed IADT
TS2	Training spare
TS3	Training spare
TSP	Stipend participation
VLI	Volunteer for INCONUS only
VLO	Volunteer for OCONUS only
VLU	Volunteer to go with assigned Unit only
VS1	Volunteer spare
VS2	Volunteer spare
